PROJECT PROFILE

Hariri Pontarini Architects

MACLAREN ART CENTRE BARRIE, ONTARIO

Mechanical Cost of Construction: \$1.5 Million

Total Construction Budget: \$4.5 Million

This new art gallery is a restoration of the historic Barrie Public Library with a significant new addition. The gallery consists of 4 primary galleries situated throughout the building, 2 galleries in the new addition are designed for stringent temperature and humidity levels to meet the requirements of the Canadian Conservation Institute Class A standards. The mechanical system for administration and unclassified gallery spaces is a rooftop variable air volume system with perimeter radiation.

Services provided by CFMS:

- Commission the Mechanical System:
 - Verify BAS & DDC System
 - Performance Testing
